LEXINGTON, KENTUCKY

SPECIAL NOTICE

This is just a Supplementary Spring List as a sort of "Reminder" of Spring Planting

Our GENERAL CATALOG (No. 96) will be sent upon request. It lists and describes more fully our complete offering of—

Apple	Flowering Shrubs
Peach	Flowering Trees
Pear	Broad-leaf Evergreens
Plum	Shade Trees
Apricot	Ornamental Trees
Cherry	Roses (50 varieties)
Raspberry	Evergreens for Lawn
Blackberry	Evergreens for Foundation
Grape Vines	Perennials
Rhubarb	Fertilizers
Asparagus	Hedge Plants
Nectarine	Vines

NO AGENTS

Our representatives and sales-people call by appointment only. Last season on at least a dozen occasions we were informed that "our agent" had said so-and-so or had called. This is gross misrepresentation. We sell direct only, assuming all guarantees and responsibility for purchases made of us. This cannot be done in the nursery business except through direct sales.

Free LANDSCAPE SERVICE

It requires knowledge and experience to properly plan and plant one's grounds. If you have problems let us help you. Our experience for over 90 years is the back of our service which can be had without obligation.

Don't wait until too late to avail yourself of this offer.

Call, write, or come to see us about your planting problems

SEED POTATOES

Through years of experience it has been proven that there is no equal to Second Crop Seed Potatoes for spring planting in this section. Successful gardeners, those who grow potatoes for profit, seldom use anything else.

The potatoes offered are of our own production and true-to-name. We grow only Irish Cobbler, which were produced from Certified Stock. Each year for seed purposes we plant back from a special test plot only those tubers that come from high yielding, smooth and disease-resistant units. This explains why they are better.

Many customers have standing orders for their annual supply of our especially grown and selected seed.

As the crop is small we advise placing your order early.

The potatoes will not be quite as large as usual but there will be no hollow ones and they will go much farther.

PRICES UNTIL SOLD OUT

(Reservations made for later shipment must be accompanied with 10% of purchase price).

HILLENMAYER'S Famous Kentucky Blue Grass Seed

Here in the heart of the famed Blue Grass Section of Kentucky the best seed in the world is produced. Hillenmeyer's seed is from the best crops and highest quality. Why gamble with poor seed—plant the best.

Special Lawn Mixture

For sowing new lawns or where you have a thin stand we recommend our Special Lawn Mixture. This consists of Blue Grass and other varieties for quicker effect.

Sow 2 lbs. to 1000 square feet on thin lawns. 4 lbs. to 1000 square feet on new lawns.

PRICES ON BLUE GRASS OR LAWN MIXTURE

1 pound	\$0.30
4 pounds	1.00
10 pounds	2.25

Ask for prices on larger quantities.

For parcel post and insurance, add 10 per cent.

FRUIT TREES

Hillenmeyer trees are propagated from the best bearing strains. There is a shortage of good fruit trees. With favorable weather here we have the finest lot in years. Every tree is guaranteed true to name and to arrive in prime condition.

APPLES

STRAWBER

Strawberry Varieties

PREMIER

No strawberry has ever been so deservedly popular. It is perfect flowering, a good plant maker, and frost resistant. Its best points, however, are its ability to set an extra large crop of berries and mature every one. Few small berries are found even at the last picking. The fruit is large, bright in color and of high quality. The leading berry for home market, supplanting all other kinds. No berry ever listed has earned such a deserved place in the variety list. We recommend it as the **BEST** early and midseason variety. In small plantings use Premier only.

BLAKEMORE

Ripens about same time as Premier. A variety that is taking the place of the old standby, Senator Dunlap. Berry very firm, good table quality and has no superior for canning or preserving. Good plant maker, especially adapted to poorer or lighter soil. We consider it one of the real discoveries. It is recognized as a superior home and local market berry.

SENATOR DUNLAP

Its one fault lies in its habit of making too many plants. Dark rich red fruits ripening in midseason, of excellent quality. Heavy annual producer. Must be kept thinned out in the row, otherwise too many plants and small size fruits will result.

GANDY

Still the best late berry. Robust plants that fruit on strong stems, blossoming exceedingly late and thus missing frosts that often kill the early bloomers. Considered the best preserving berry by many and is also very fine as a table variety. Plant with confidence.

DORSETT

One of the most satisfactory varieties that has been introduced in years. Its high quality, light colored berries are excellent both for home and commercial purposes. Ripens a few days after Premier and while by some is thought better we are not yet ready to give it preference. It is a good plant maker.

FAIRFAX

As Fairfax and Dorsett were sent out at the same time and ripen along with Premier they are generally compared with each other. We have found that Fairfax ripens a week after Premier, is of darker color, especially when ripe, and of firm texture. It so overlaps Aroma that we prefer it to that variety both as to quality and production. While excellent and can be planted to take the place of Premier we are not yet willing to admit its superiority. However, you can plant with confidence.

AROMA

As Premier and Fairfax overlap its season of ripening and are so superior, we have discontinued Aroma.

Cultural Directions

WHEN TO PLANT. Late March or April is the chosen time. Fall planting usually results in a complete failure.

SOIL. Strawberries respond to good soil and you should choose a fertile location. However, do not plant immediately after turning under sod, as white grubs invariably cause trouble. Prepare the ground very thoroughly.

DISTANCE TO PLANT. The rows should be three and a half to four feet apart and the plants set about eighteen inches in the row.

CULTIVATION. During the summer keep the ground constantly stirred and free of weeds. Moisture preservation by dust mulch will conserve the vitality of your plants and produce a fine matted row. Keep the hoe and cultivator busy.

MULCHING. Protect by mulching with clean straw after the ground is frozen. Do not apply too heavily, as this smothers the plants. Leave on during the fruiting season, as it conserves moisture and keeps the berries clean.

AFTER FRUITING. Immediately plow or narrow the original row to about a foot. Thoroughly cultivate the middle so as to give the new plants a chance to get established. Repeat the second year. We do not advise keeping beds more than 2 or 3 years.

FAMILY REQUIREMENTS. About three hundred, five hundred, or a thousand plants are required for a small, medium, or large family.

SELECTION OF VARIETIES. We shall be glad to make selection of suitable varieties if you want to leave this to us.

PRICES

Our prices permit you to make selection of any variety listed, except Mastodon. This is important when comparing prices.

100	\$0.80	600	\$3.00
200	1.40	700	3.50

• ROSES •

"Queen of Flowers"

Plant Our Strong, Healthy Bushes this Spring
and Enjoy Blossoms All Summer

Many Roses which succeed in the North and other parts of the country do not do so well in Kentucky. Almost every Rose listed in our catalog has been tested on our own grounds and proven satisfactory and dependable. We have discarded or do not carry many which will be described favorably in other lists. Why spend your money and time on doubtful kinds, when you can buy our "Tried and Tested" Roses?

If properly sprayed and cultivated during summer, protected over winter, you will find a planting of Roses one of the most satisfactory expenditures for your garden.

Tried and Tested ROSES

(Strong 2-yr. No. 1 plants)

50c each; \$2.25 for 5

Betty Uprichard. Copper-red buds, salmon-pink blooms.

Briarcliff. Rose-pink.

Caledonio. Pure white.

Charles K. Douglas. Semi-double, scarlet-crimson.

Dome Edith Helen. Most perfumed of all pink Roses.

E. G. Hill. Deep crimson and scarlet, velvety.

Edith Nellie Perkins. Long pointed buds, cream, orange and pink.

Etoile de Hollonde. Best red Hybrid Tea.

Frou Karl Druschki. White American Beauty, Snow Queen.

Golden Dawn. Lemon-yellow with rose markings.

Betty Uprichard

Edith
Nellie
Perkins

Mrs. Pierre
S. Du Pont

Tried and Tested ROSES

(Strong 2-yr. No. 1 plants)

50c each; \$2.25 for 5

Koiserin Auguste Viktoria. Double, creamy white.

Lody Hillington. Apricot-yellow.

Mrs. Charles Bell. Salmon-pink Radiance.

Mrs. E. P. Thom. Rich lemon-yellow.

Mrs. Pierre S. du Pont. Best yellow. Rich red-gold buds.

President Herbert Hoover. Maroon, orange, and gold.

Radiance. Best of all pink Roses.

Red Radiance. A bright racy red form of Radiance.

Talisman. Multi-colored, orange, yellow, and rose-red.

Patented Roses

There are so many Patented Roses on the market that we cannot list all of them. However, we are in a position to supply almost every variety, and if you will send us your orders, we promise good, fresh plants at some prices as quoted in other catalogs.

POLYANTHA

These dwarf everblooming Roses are fine for bedding, edging, and are quite hardy. Can also be used with striking effect in landscape plantings.

50c each; \$2.25 for 5

CATHERINE ZEIMET. Pure white, fragrant.

CHATILLON. Clear pink.

GLORIA MUNDI. Orange-scarlet.

IDEAL. Dark red.

Red Radiance

Condesa de Sastago

DeLuxe Roses

2-year No. 1 plants — 75c each; \$3.50 for 5

For parcel post and insurance, add 10%

ANNUAL BLOOMING

Christine Wright. A delightful, clear pink.

Climbing American Beauty. Light crimson, very fragrant.

Dr. W. Van Fleet. Large flowers of exquisite flesh-pink.

Gardenia. Rich, creamy yellow.

Mary Wallace. Clear, brilliant pink.

Paul's Scarlet Climber. Vivid scarlet-red.

Primrose. Canary-yellow.

Silver Moon. White, semi-double.

REPEAT BLOOMING CLIMBERS

(This class blooms off and on throughout the season)

Blaze. (U. S. Patent No. 10). Vivid scarlet-red. **\$1.00 each.**

Climbing Talisman. Multi-colored. **50c each.**

New Dawn. (U. S. Plant Patent No. 1). An everblooming
Dr. W. Van Fleet. **\$1.50 each.**

Mermaid. Large, single blooms of clear, light yellow. **50c each.**

TRI-GEN

Combined Spray Treatment

Fungicide—Insecticide—Plant Stimulant

Complete protection against Plant
Insects and Diseases

In the past Mildew and Black Spot have been most difficult to combat. However, these diseases are now easily controlled with the Tri-ogen Spray Treatment, which gives COMPLETE protection against all diseases and insect pests. It is easily applied and also acts as a plant stimulant—producing vigor in growth with resultant luxurious blooms, heretofore considered impossible. The Tri-ogen Spray Treatment applied weekly, from early season until late frost, makes it possible for the amateur to achieve the successes, in many cases, comparable to the professional grower.

TRI-GEN was officially adopted for the exclusive protection of the garden of 16,000 Roses at the CENTURY OF PROGRESS, Chicago World's Fair.

PRICES

A. Small Kit (makes 16 quarts)	\$1.50
B. Medium Kit (makes 64 quarts)	4.00
C. Large Kit (makes 32 gallons)	6.00
D. Estate Kit (makes 128 gallons)	20.00

PERENNIALS

These, like Roses, are in most cases better planted in the spring. Below is only a partial list with short descriptions. See our General Catalog for full descriptions.

PRICES, except where noted:

20c each 6 for \$1.00 \$2.00 per dozen

For parcel post and insurance, add 10%.

ANCHUSA italicica. Bright blue flowers, tall growing.

ANCHUSA myosotidiflora. Dwarf perennial flowers resembling forget-me-nots. 30c.

AQUILEGIA. Commonly known as Columbine, Long Spurred Hybrids, mixed shades.

ARTEMISIA, Silver King. Striking silver leaved plant.

BABY'S BREATH. Tiny white flower.

BABY'S BREATH, Double. Bristol Fairy variety. 30c.

BAPTISIA (False Indigo). Dark blue lupine-like flowers.

CANTERBURY BELL. Garden favorite, mixed colors.

CARNATION. Hardy border variety, mixed colors.

CHRYSANTHEMUMS. Pink, white, red, and yellow.

CHRYSANTHEMUMS, HYBRID KOREAN. 6 shades. 35c each. See Catalog for full description.

COREOPSIS. Yellow Daisy. Valuable for cutting or border.

DELPHINIUM, Belladonna. Light blue.

DELPHINIUM bellamosum. Dark blue.

DELPHINIUM, English Hybrids. All shades of light and dark blue, mixed.

DORONICUM. Large, bright yellow marguerite-like blooms. 30c each.

FOXGLOVE. An old garden favorite, mixed colors.

GAILLARDIA. Yellow flowers marked with crimson and brown.

HARDY ASTERS, St. Egwin. Rosy pink, medium growth.

HARDY ASTER, Climax. Lavender-blue, tall growing.

HARDY ASTER, Mauve Cushion. Delicate mauve, dwarf.

HELIOPSIS. Deep golden yellow flower. Blooms in August.

HEUCHERA brizoides. Pale pink.

HEUCHERA sanguinea. Scarlet. Excellent for cutting.

HOLLYHOCKS. Mixed colors.

IBERIS (Hardy Candytuft). Dwarf.

IRIS, GERMAN. 30 varieties. 25c each.

IRIS, JAPANESE. 6 varieties. 35c each.

IRIS, SIBERIAN. Blue and white.

LEMON LILY. Clear yellow, sweet scented.

LINUM. Commonly known as Flax. We offer

the blue variety.

MALLOW MARVELS. White, Light Pink, Deep Pink and Red.

PHLOX. 7 varieties.

PHLOX, COLUMBIA. (U. S. Plant Patent No. 118). 50c each.

PLATYCODON (Japanese Bellflower). Blue.

PYRETHRUM (Painted Daisy). Pink shades.

SHASTA DAISY. 3 varieties.

STATICE. (Sea Lavender). Minute purplish blue flowers.

SWEET WILLIAM. Garden favorite. We offer mixed shades and Newport pink shade.

TRITOMA (Red Hot Poker). Bright red conelike heads.

VERONICA. Very attractive blue flower spikes. Valuable for cutting.

YUCCA. Spikes of creamy white flowers borne on tall stems.

PEONY in assorted colors and varieties. See our catalog for full descriptions.

SHRUBS

There is some place for flowering shrubs around every home, cottage, mansion, or palace. A corner needs a bit of color, a foundation wall needs to be concealed, a garage should be screened. In all these places flowering shrubs are adaptable, hardy, and successful.

This is only a partial list. We offer a wide assortment.

Consult our General Catalog if interested in other varieties.

Aronia.	Red Chokeberry.	Rhus.	Sumac.
Berberis.	Jap. Barberry.	Salix.	Pussy Willow.
Berberis.	Redleaf Barberry.	Spirea Anthony Waterer.	
Buddleia.	Butterfly Bush.	Spirea arguta.	
Calycanthus.	Sweet Bush.	Spirea, Korean.	
Cydonia.	Japanese Quince.	Spirea Thunbergi.	
Deutzia.		Spirea Van Houtte	
Exochorda.	Pearl Bush.	Symporicarpos.	Coralberry.
Forsythia.	Golden Bell.	Symporicarpos.	Snowberry.
Hydrangea.		Syringa.	Lilac, Purple and White.
Hibiscus.	Althea.	Tamarix.	
Kolkwitzia.	Beauty Bush.	Viburnum.	Common Snowball.
Lespedeza.	Bush Clover.	Viburnum.	Highbush Cranberry.
Lonicera.	Bush Honeysuckle.	Weigela.	Assorted.
Philadelphus.	Mock Orange.		
Rhodotypos.	Jetbead.		

PRICES (see note below).

Any assortment permitted.

	Each	5	10
Medium size	\$0.40	\$1.75	\$3.50
Large size50	2.25	4.50
Extra-large size60	2.75	5.50

NOTE: Only **medium size** can be sent by parcel post; **other sizes** must be shipped by express, freight, or truck.

For parcel post and insurance, add 10%.

SHADE TREES

Few things improve your property and give as much satisfaction as a beautiful shade tree. Ours are not collected stock but good, healthy transplanted specimens with fine root systems, which should start to grow at once and give immediate results.

Space does not permit listing descriptions. See our catalog or write for prices.

We offer the following.:

Ash	Mulberry
Birch	Oak (in variety)
Cypress	Persimmon
Dogwood	Poplar
Elm (in variety)	Redbud
Hackberry	Sour Gum
Hornbeam	Sweet Gum
Kentucky Coffee	Sycamore
Linden	Tulip Tree
Magnolia (in variety)	Varnish Tree
Maiden Hair	Willow
Maple (in variety)	Yellow Wood

Spraying

We are now in position to do spraying, using most modern equipment and scientific methods. Our machine will develop 300 to 400 pounds pressure, thereby giving complete coverage. Write or consult us when in need of this service.

Tree Feeding

Great strides have recently been made in the feeding of young and old trees. We are constantly studying new and improved methods, and are now in position to offer this service. Let us talk tree feeding over with you.

PLANT FOODS and MULCHING MATERIALS

Bone Meal

A safe and effective fertilizer for all purposes. No danger of burning the foliage or doing root injury. Fine for lawns, too, requiring 10 pounds to 250 square feet. Use Bone Meal for safety and results. 10 lbs., 50c; 25 lbs., \$1.00; 100 lbs., \$3.50.

Golf Fertilizer

(Swift's 12-6-4)

After years of experimenting, Swift & Co. have prepared this special fertilizer which is recommended for large estates and golf courses. A high grade, well-balanced plant food, which has given wonderful results. Water in if grass is tender, or apply just before a rain, or run the back of a rake over the blades of grass after applying. Use 10 to 15 pounds to 1000 square feet. 25 lbs., \$1.50; 50 lbs., \$2.50; 100 lbs., \$4.00.

Sulfate of Ammonia

Used for its nitrogen. Effective for all plants in which a large leaf-development or rapid growth is desired. Tends to create an acid reaction on soil. "Water in" after applying. One pound to 50 square feet is recommended. Use in very weak solution on newly set plants. 10 lbs., 50c; 25 lbs., \$1.00; 100 lbs., \$3.50.

Sheep Manure (Pulverized)

Can be applied as a top-dressing without fear of injury and gives quick results. Application should be made 2 or 3 times per year. Equally effective when spaded in beds. Can be applied safely in liquid form using one pound to five gallons of water. 25 lbs., \$1.00; 100 lbs., \$3.00.

Turf Builder

This is the best all-round fertilizer we have ever found. It is not all chemical but contains 50 per cent vegetable matter. This latter provides a slow, lasting fertilizer while the chemical gives immediate action. It will go more than twice as far as most fertilizers. Use 10 pounds per 1000 square feet. For tree-feeding we recommend not to exceed 3 pounds per diameter inch. For broadcasting under trees use not over 10 to 12 pounds for the same area but apply a second treatment as too much at one time may injure your grass. 25 lbs., \$2.00; 50 lbs., \$3.50; 100 lbs., \$6.00; 500 lbs., \$25.00.

Peat Moss

No other material is quite its equal for soil-conditioning. It will retain 6 to 10 times its dry weight in water, and is free of all weed seeds. As a mulch, especially for Roses and perennials, it has no equal. Sold in bales of approximately 20 bushels which will cover 300 square feet 1 inch deep. Spaded in with manure it has the ability to absorb enormous amounts of fertility which the plants readily take up. Indispensable to the good gardener. Bale, \$3.75; 5 bales, \$17.50; per bushel, 50c.

Vigoro

Vigoro is not just an ordinary fertilizer but a complete balanced plant food containing all of the 11 elements necessary for plant development.

Use 30 to 50 lbs. per 1000 sq. ft. on lawn, 1 handful to each square foot around roses, shrubs, and trees. Water in immediately after application. 10-lb. pkg., 85c; 25-lb. bag, \$1.50; 50-lb. bag, \$2.50; 100-lb. bag, \$4.00.
